

BATTICS®

Emulsifier Powder Solutions for reliable Texture and Stability

Bringing Stability to every Applications: Deliver consistent texture, emulsification and performance with BATTICS®.

BATTICS® are versatile emulsifier powder solutions designed to improve texture, stability and processing performance across a wide range of food applications. Easy to handle and incorporate into dry blends, BATTICS® help create consistent quality, optimized overrun, enhanced mouthfeel and reliable functionality in bakery and ice cream products.

PRODUCT INFORMATION

BATTICS® combine carefully selected emulsifier systems in a convenient powder format. It supports emulsification, aeration and stabilization while helping optimize texture, shelf life and processing efficiency. The ideal and convenient solution for diverse range of applications.

APPLICATIONS

- Sponge cakes
- Cakes & muffins
- Soft serve and artisanal ice cream

KEY BENEFITS

- **Optimized aeration:** Supports volume and light texture
- **Stable Structure after baking:** Helps maintain product consistency
- **Powder format:** Easy handling, dosing and blending resulting in robust performance
