
## wheyco™ W80 I LAF & LAF

# Lactose-Free. Full Protein Power.

No compromises, just performance. **wheyco™ W80 I LAF** is our instantized, lactose-free 80% whey protein concentrate, made from fresh cheese whey and processed through enzymatic hydrolysis to achieve <0,1 % residual lactose (typically 0,05 %). It disperses easily, delivers excellent nutritional value, and is the ideal choice for high-protein applications targeting lactose-intolerant consumers.

Also available as **wheyco™ W80 LAF**, a non-instantized version for customized processing needs.

# wheyco™ W80 I LAF & LAF

## Application Potential

With wheyco™ W80 I LAF, you can transform a wide range of products into innovative, lactosefree, and high-protein solutions.

- **NUTRITIONAL FORTIFICATION**
- **SPORTS NUTRITION**
- **MEDICAL NUTRITION**
- **POWDER BLENDS**
- **INSTANT SOUPS & SAUCES**
- **PROTEIN-ENRICHED DRINKS**

## Why choose wheyco™ W80 I LAF & W80 LAF?

- **LACTOSE-FREE ENJOYMENT***
  Developed to meet the rising demand for lactose-free dairy nutrition, it is ideal for health-conscious consumers and those with lactose intolerance
- **ULTRA-LOW LACTOSE CONTENT**
  Contains <0.1% residual lactose, typically around 0.05%. In application, values are generally below 0.01%
- **SUPERIOR FUNCTIONALITY**
  Mild, neutral flavor with excellent solubility across a wide pH range. Outstanding dispersibility and emulsification properties
- **HIGH NUTRITIONAL VALUE**
  Complete amino acid profile supports a wide range of protein-enriched, lactose-free applications
- **CLEAN LABEL**
  Produced without genetic engineering and contains non-GMO lecithin for instantization (specific to I LAF)
- **PREMIUM SENSORY EXPERIENCE**
  Offers the same taste, texture, and performance as conventional WPC80, without causing digestive discomfort

*Please ensure compliance with your local regulations.
